

Welcome to the Wear Yellow Nebraska Cab Ride Program!

During the month of October, we will be conducting a pilot program with Lyft as our transportation provider. Our goal is to offer you the best experience possible transporting you to and from your treatment, while also cutting costs to stretch our fundraising dollars and allow us to support as many Nebraskans in their fight against cancer as possible.

To request a ride, please contact your Nurse Navigator, Social Worker, or Primary Care Provider at the Midwest Cancer Center, Legacy location. They will arrange your ride and provide you with all the necessary details.

After your ride, please answer a short survey (5 questions) about your experience at <http://www.wearyellownebraska.org/lyft-survey/>. Or you may complete the paper version by answering the questions on the back, and returning this form to your healthcare provider. This will help us gauge the success of the pilot.

If you have questions or comments about our program, please don't hesitate to contact us.

Thank you,

Steve Kuzelka
